

iPad Tips & Tricks – Air Play From Multitasking Bar

If you are already playing some media, you can initiate **AirPlay** from the Multitasking Bar.

Double press the Home button and then slide the bar to the right to reveal the music controls. If you have an **AirPlay** enabled device, the **AirPlay** button will be displayed.

Tap this and your media will start to play through that device. This is how we will be projecting from iPads to classroom data projectors. Apple TV's are in all classrooms and we can connect to any of them.
