

# St Mary's College Toowoomba

*Providing quality Catholic education for boys since 1899*

## iPad Tips & Tricks – Battery Percentage

You can see roughly how much battery life you have left by looking at the battery icon at the top right of your iPad. However, if you want a more accurate battery reading, turn on the percentage icon.

Go to **Settings, General**, then **Usage**. Turn on **Battery Percentage** and it will appear next to the battery icon in the status bar.
