

St Mary's College Toowoomba

Providing quality Catholic education for boys since 1899

iPad Tips & Tricks – Change Keyboard Fast

If you use a lot of international keyboard, it can be time-consuming to keep tapping the globe to get to the one you want.

For a quicker way, tap and hold the globe icon to bring up a list of your keyboard. Then slide your finger to the one you want and let go.

This switches the iPad to the selected keyboard and also checks spelling in that language.
