

iPad Tips & Tricks – Find My iPad

Download the free '**Find My iPhone**' app and use it to locate your iPad on a map if it gets lost or misplaced.

Once you have downloaded it, open the app and then log in with your **Apple ID**.

You can then use the app on your iPad to find other devices, or go to www.icloud.com and log in there. Here you can use the **Find my iPhone** section to find your iPad. You can remotely lock it, wipe your device, or send a sound and message to help locate it.
