

St Mary's College Toowoomba

Providing quality Catholic education for boys since 1899

iPad Tips & Tricks – Hidden Music Controls

You can quickly skip or pause any song by using the music controls.

To access them, open the Multitasking Bar by pressing the Home button twice, and then swipe to the right.

Here are the music controls as well as an app icon showing you which app is playing the music. Now you do not have to quit the app you're using to change songs.
