

iPad Tips & Tricks – Rapid Web Search

From Spotlight you can quickly search the web or Wikipedia if you want to find out some information quickly without having to open *Safari*.

From your home screen, swipe to the right to access Spotlight and then type in your search query. You can then tap **Search Web** or **Search Wikipedia** to find the item online.

You can also use Spotlight to search your iPad for content on there, e.g. Apps, Music, contacts, etc.
