

St Mary's College Toowoomba

Providing quality Catholic education for boys since 1899

iPad Tips & Tricks – Two More Dock Items

The dock at the bottom of the screen can hold most-used applications. You can have two more to make a total of six.

While moving apps around, just drag the app you want down to the dock. Now they will appear on every page. You can just drag apps off the dock if you want to make more space for other apps.

It would be recommended that you have the SMC iPad Lounge icon and also the PC Schools icon on your dock (as shown).
